

# A SIMPLE BOWEL TEST COULD SAVE YOUR LIFE.

**The home test kit sent in the mail to 50–74 year olds is free, easy to do and can detect early signs of bowel cancer.**

Sometimes bowel cancer doesn't have any symptoms — that's why doing the test is so important. When detected early 90% of bowel cancers can be successfully treated. So don't underestimate the power of your poo, it could save your life.
