

**DO YOU PRACTISE COLPOSCOPY?
WANT TO BE CERTIFIED?**

The Colposcopy Quality Improvement Program (C-QUIP) is a RANZCOG initiative supported by the Federal Department of Health and Ageing, which aims to improve the care of women who are referred for colposcopy and treatment of screen detected abnormalities.

The C-QUIP would like to offer all medical practitioners in Australia and New Zealand who are currently practicing colposcopy the opportunity to be certified in this field.

To obtain *Certification as a Practising Colposcopist* – a simple application process involving the completion of two forms is required and are available to download from the C-QUIP website: <http://www.ranzcog.edu.au/cquip/certification.shtml>

Why be certified?

This certification and participation in audit allows you to reflect on your practice and implement strategies for improvement if required.

Applications will be accepted until 31 December 2011 via email, fax or post to:

Miss Jordan Chrisp
C-QUIP Coordinator
