

A NEW AND BETTER TEST FOR WOMEN

Talk to your health worker today – for yourself, your family and your community.

Nhenhe test nyewane mwerre urlkere akerte aneme arelhe mapeke, mwerre arle anetyenheke.

The new and better test replaces the old Pap test, and you only have to do it every 5 years.

If you're aged 25 – 74 you should speak to your health worker about when you need your next test, this is normally two years after your last Pap test. It's a great way to make sure you're strong and healthy for your family, kids and community.

Test nyuwane nhenhe-le urrpame Pap test angkweye nhenge, unte imarte alhele aneme-le 5 years ware-nge anteme arle.

Unte apeke arle 25 to 74 years akerte aneme, angkaye health worker-ke, ilengare apeke arle test ngkwinhe anetyenheke.

Mwerre anthurre arle anetyenheke, ngkwenge artweye areyeke ane ampe ngkwinhe areyeke community-le.
