

A NEW AND BETTER TEST FOR WOMEN

Talk to your health worker today – for yourself, your family and your community.

Ngatja kuwarn newena test tjunu kungkaka panya healthy nyunatjaku.

The new and better test replaces the old Pap test, and you only have to do it every 5 years.

If you're aged 25 – 74 you should speak to your health worker about when you need your next test, this is normally two years after your last Pap test. It's a great way to make sure you're strong and healthy for your family, kids and community.
